

### V87000 MINI INFLATOR

#### GENERAL CHARACTERISTICS

- The V87000 Mini Inflator Series was developed for markets where weight and volume are at a premium
- The 100% polyether base, polyurethane body can be welded to all approved FAA fabrics or commonly used marine fabrics
- The inflator is available in two colors to differentiate thread size:
  - 3/8 inch – gray body
  - 1/2 inch – tan body
- Available lanyard lengths:
  - 4 inch (10 cm): gray body and tan body
  - 5 inch (13 cm): tan body
